

CALEIDO GLASS COLLECTION

Continuing with our innovative tradition of HANDMADE and RECYCLED glass, our new Caleido Glass Collection leads into something quietly luxurious, echoing the depth and brilliance of precious stones. Each piece is infused with rich earth or water tones capturing the organic beauty of nature in its purest form. The subtle variations in color and texture make every item one of a kind, reflecting light in a way that feels both grounding and luminous. Caleido Glass is where sustainability meets refined design, bringing a sense of calm, elegance and intention into every space.
